

Pritkumar Kachhadiya

MCA Student

Motivated MCA student with a strong foundation in the complete software development life cycle, system design, and AI integrations. Skilled in leveraging modern technologies to solve complex business challenges while actively learning emerging AI tools and frameworks to continuously expand technical capabilities. Seeking to apply analytical problem-solving and full-stack expertise to deliver impactful end-to-end data and AI solutions

Banglore, Karnataka

SKILLS

Frontend

HTML5,CSS3, JavaScript, React.js, Next.js, Bootstrap, TailwindCSS

Backend

PHP, Express.js, Node.js, Python

Databases

Oracle Database,MySQL, MongoDB, PostgreSQL , Redis

AI & Machine Learning

Pandas, NumPy, Scikit-Learn, Data Preprocessing

Tools & Technologies

Git, GitHub, VS Code, n8n, REST APIs, Responsive Web Design

Soft Skills

Teamwork, Problem Solving, Communication, Analytical Thinking

EDUCATION

Master of Computer Applications (MCA)

PES University,Bangalore, Karnataka

2025 – Present

- Currently pursuing MCA
- Focused on Web Development, MERN Stack

Bachelor of Computer Applications (BCA)

VNSGU,Surat,Gujarat

2022 – 2025

- CGPA: 8.75
- Learned Programming, Database Management, and Web Technologies.

PROJECTS

Park Heaven (Parking Management System) | Ongoing

- Upgrading a full-stack PHP and MySQL parking platform to a modern Next.js architecture, integrating a new automated QR-based entry and exit system.
- Manages comprehensive features including user booking, real-time slot availability, secure payment integration, booking extensions, and an admin dashboard.
- Directed the complete software engineering life cycle for the upgrade by authoring detailed SRS documentation and mapping system logic via UML diagrams.

AI-Powered Client Hunter System

- Designed and deployed an automated lead generation workflow utilizing n8n, web scraping tools, and the OpenAI API.
- Orchestrated data pipelines to streamline client outreach, demonstrating practical experience with the type of AI implementations valued in technical consultancy.

RestoPay

- Developed a MERN Stack restaurant management and QR-based food ordering system with Admin, Manager, Chef, and User modules.
- Implemented features for online ordering, inventory management, QR scanning, order tracking, and payment functionality.

PHD Interior

- Interior designand management website developed during BCA using HTML, CSS, Bootstrap, and JavaScript. Features modern UI design, service sections, gallery showcase, and responsive layouts. (Frontend)
